

## Having Trouble Seeing MiND on Comcast Cable? Your solution = a digital convertor box.

If you or someone you know subscribes to Comcast and has not been able to see MiND, please tell them to call Comcast at 1-800-Comcast and ask for the free digital converter box.

You will not need to upgrade their cable service- this box is free for 12 months. Or, if they do not want to call Comcast, they can stop by their local Comcast office with a copy of their bill and they can ask for the free digital converter box.

The majority of viewers who are experiencing this problem are Comcast customers who do not have a cable box attached to their television. Comcast customers who get their cable directly from the wall and not through a box are the ones who are experiencing this problem.

**To identify your local service center, customers can call 1-800-COMCAST. You can also visit [www.comcast.com](http://www.comcast.com) and click on "Payment Centers" under the Customers tab.**
